

ACPro Induced AC Mitigation Ribbon

Product Advantages

- Easy handling and installation
- Simple field splices
- Low electrical resistivity
- Cost effective when compared to other AC mitigation solutions

ACPro Product Specifications

Copper Conductor Size	#2 AWG	#1/0 AWG
Backfill	Loresco PowerFill™	
Sock Material	Porous synthetic fabric	
Sock Dimension	1.5 Inches (38 mm) diameter	
Length per Reel	1,500 ft. is standard but custom lengths are available	
Pigtail for Spicing	A 24" length pigtail is provided at each end of product. Custom cables can be factory spliced to pigtail ends at additional cost.	

ACPro Reel Details

Conductor	Model	Part No.	Reel	Net Weight	Gross Weight	Pallet Dimensions
#2 AWG	FW-02-1000 (1,000 ft. reel)	01-95410	1	1,130	1,390	36" x 48" x 53"H
#2 AWG	FW-02-1500 (1,500 ft. reel)	01-95412	1	1,695	1,955	
#1/0 AWG	FW-1/0-1000 (1,000 ft. reel)	01-95420	1	1,245	1,505	
#1/0 AWG	FW-1/0-1500 (1,500 ft. reel)	01-95422	1	1,870	2,130	

ACPro Field Splice Kits

Description	Includes	Part No.
ACPro Splice Kit, #2 AWG	Visi-Lock splice kit & Burndy split bolt connector	12-22011
ACPro Splice Kit, #1/0 AWG	Visi-Lock splice kit & Burndy split bolt connector	12-22012

About Farwest Corrosion Control Company

Farwest Corrosion Control Company is an industry pioneer and leader in comprehensive cathodic protection and corrosion control services and related products. Cathodic protection and corrosion control services include engineering, technical consultation and cathodic protection installation. The firm also distributes and manufactures products for cathodic protection and corrosion control.

Founded in 1956, the firm remains privately held and family owned and is a Certified Woman Owned Business. The firm is headquartered in Downey, CA, has nine regional operations and over 175 employees nationwide.

Prevent induced AC corrosion with the ACPro Mitigation Ribbon. Order your ACPro solution today.
