

**FARWEST CORROSION  
CONTROL COMPANY**

# ***Complete Cathodic Protection & Corrosion Control Solutions***

## ***Products & Services***

**Oil • Gas • Pipeline • Water • Wastewater • Energy • Offshore • Marine**

## About Our Company

Established in 1956, Farwest Corrosion Control Company is a recognized leader in providing cathodic protection and corrosion prevention products as well as engineering and technical services for a wide variety of industries. These industries include oil, gas, pipeline, water, wastewater, energy, offshore, marine and more.

Our reputation and continuing goal for integrity, service and quality is what drives our company and commitment to our customers. Our word is our bond and trust, ethics and personalized service is our daily practice.

## Offered Products

We offer an extensive selection of high quality products and equipment designed to provide a variety of standard or custom cathodic protection or corrosion solutions. As a distributor, manufacturer and product developer, we have the unique ability to offer a variety of product solutions to meet customer needs. With nine regional office and warehouse locations, we maintain one of the industries largest product inventories, which allows us to meet most needs on an expedited basis.

Our product line includes everything from cathodic protection anodes, rectifiers, backfill and instrumentation, to coatings, isolators and specialty equipment. If your need is to prevent corrosion, we can likely meet that need with efficiency and experience.

Farwest is partnered with our industry's most experienced and highest quality product manufacturers. These relationships allow us extended expertise and opportunities for additional solutions when needed.

## Installation Services

Farwest is one of the industry's largest specialty contractors for the installation, repair and maintenance of cathodic protection systems of all types. We own and operate our own equipment that includes deep well drilling rigs, augers, excavators, service equipment and more.

We have the unique ability to provide turn-key cathodic protection system installations, system repair, troubleshooting, abandonment and project management. Our experienced and qualified personnel provides services to protect a wide variety of metallic structures including pipelines, storage tanks, process equipment, piers, pilings and much more.

## Engineering Services

Our engineering staff is comprised of professional engineers and NACE accredited corrosion professionals with vast experience in cathodic protection and corrosion related solutions. In addition to system design and feasibility studies, we also provide field services such as system testing, pipeline integrity work, system commissioning, periodic surveys, soil & water analysis, project management and customer training.

It's important to know that our service personnel are trained and certified under the Office of Pipeline Safety's Operator Qualification Program. In addition, all service personnel work in accordance with a variety of drug and

# Product Lines and Services

## C.P. ANODES

- Cast Iron
- Graphite
- Platinum
- Mixed Metal Oxide
- Custom Solutions
- Aluminum
- Magnesium
- Zinc

## POWER SUPPLIES

- C.P. Rectifiers
- Pulse Rectifiers
- Solar CP Systems
- Overvoltage Protection
- Lightning Protection Systems
- Alternative
- Custom Cabinets

## CABLE & ACCESSORIES

- C.P. Cable
- Test Cable
- Cable Repair
- Splice Kits
- Thermite Welding
- Pin Braze
- Weld Repair
- Marking Tape

## REFERENCE ELECTRODES

- Portable
- Permanent
- Specialty
- Accessories

## C.P. INSTRUMENTATION

- Potential Meters
- Multimeters
- Soil Testing
- Data Logging
- Survey Equipment
- Interrupters
- Isolation Testers
- Test Leads/Reels
- Short Locators
- Pipe Locators

## TEST STATIONS

- Above Ground
- Flush Mount
- Monitoring
- Junction Boxes
- Anode Controllers
- Bond Boxes
- Shunts
- Coupons
- Line Markers

## REMOTE MONITORING

- Rectifiers
- Test Stations
- Critical Bonds

## C.P. BACKFILL PRODUCTS

- Anode Backfill
- Coke Breeze
- Specialty Fill
- Vent Systems

## COATINGS

- Tape Systems
- Liquid Epoxies
- Shrink Sleeves
- Sealing Products
- Composite Wraps
- Mastics & Fillers
- Coating Repair

## ISOLATORS

- Flange Isolation
- Pipe Fittings
- FRP Shields
- Pipe Supports
- Casing Spacers
- Casing End Seals
- Modular Seals
- Casing Filler

## INSPECTION EQUIPMENT

- Coating Thickness
- Wall Thickness
- Pit Gauges
- Coating Adhesion
- Holiday Detectors
- Surface Profile
- Chloride Testers
- Coating Tools

## ACCESSORY ITEMS

- Rockshields
- Pipeline Pigs
- Fall Prevention Systems

## C.P. INSTALLATION

- Deep Anode Drilling
- Turnkey Installation
- System Repair
- Well Abandonment
- Grounding Systems

## C.P. ENGINEERING

- System Design
- Pipeline Integrity
- Maintenance Services
- Field Testing & Surveys
- Troubleshooting
- DOT Compliance
